## **Unleash Your Inner Explorer**

Bound By Earth believes in the power of first-hand experiences. Students are encouraged to venture out into the wild, exploring diverse ecosystems and encountering a myriad of plants and animals in their natural habitats. From the majestic African savannah to the enchanting depths of the Amazon rainforest, our academy ensures that students are exposed to a wide variety of landscapes and wildlife.

One of the standout features of Bound By Earth is its emphasis on field trips and expeditions. These excursions provide students with invaluable hands-on experience and are led by passionate instructors who are well-versed in the intricacies of each location. Whether it's tracking wildlife, studying plant life or understanding the delicate balance of ecosystems, these journeys offer a unique opportunity to witness Mother Nature at her finest.

## **A Multidisciplinary Approach**

At Bound By Earth, we recognize the interconnectedness of various scientific disciplines and their role in understanding the natural world. As such, our curriculum combines elements from fields such as biology, ecology, geology, and anthropology. By adopting a multidisciplinary approach, students are encouraged to develop a holistic understanding of nature and appreciate the complexities that exist within it.

Our expert instructors are not only knowledgeable in their respective fields but are also passionate educators dedicated to instilling a love for the environment in their students. Whether it's dissecting plants in the laboratory, studying animal behavior in the field, or investigating geological formations, students at Bound By Earth are exposed to a wide range of practical learning experiences.

## **Beyond the Classroom**

Bound By Earth firmly believes that learning does not only take place within the confines of a classroom. That is why we offer a plethora of extracurricular activities to complement our academic program. From photography workshops to survival skills training, our goal is to encourage students to develop a well-rounded set of skills that will serve them well in their future endeavors.

In addition to the hands-on activities, Bound By Earth also organizes regular guest lectures from renowned experts in the field. These lectures allow students to gain insights from leading scientists, conservationists, and explorers, and acts as an inspiration for their own career aspirations.

## **Embracing Sustainability**

Sustainability lies at the heart of Bound By Earth's philosophy. As future stewards of the environment, it is crucial for students to understand the importance of conserving nature for future generations. The academy actively promotes eco-friendly practices and encourages students to undertake projects that contribute to environmental conservation.

Bound By Earth also takes pride in its efforts to minimize its ecological footprint. The academy's facilities are built using eco-friendly materials, and

students are taught about sustainable practices, such as responsible waste management and energy conservation.

## Join the Nature Hunters

Tara Thompson cannot be injured. Since the night her parents died in a tragic accident, she hasn't felt pain of any kind, not so much as a papercut. And she has no idea why. Though her body healed quickly, her heart and soul took its time. Luckily, a loving foster mom and an unwanted best friend stepped in to speed up the process. Despite Tara's best efforts, her new BFF, Shelly Smith, just wouldn't go away. By their senior year, the girls were thick as thieves and would probably become thieves if Shelly had anything to say about their future.

Thankfully, fate intervenes in the form of a high school recruiter, Elias Creed, who works for a mysterious geological testing company. Cue the dreamy music and soft lighting as he walks in slow motion toward her. Then Elias opens his mouth and Tara laments the fact that the first guy she's ever been seriously attracted to...is a complete and utter butthead. Still, she can't seem to shake him, and she and Shelly are both intrigued by the company he works for. Little do they know it's not a company at all. It's an academy for those gifted with elemental powers and she's already been enrolled.

And Elias isn't Tara's only suitor. The hottest guy in school--Tucker Adams--has been asking Tara out for the past three years and each time she's shot him down. Now, he's finally broken down her walls. But when Elias and Tucker both warn Tara the other is dangerous, she doesn't know who to believe. When the truth is finally revealed, Tara finds out both men know more about her past than she does, including what caused the accident that took her parents' lives.
