"You can't Schitt's Creek a town, Tank."

"And you can't verb a noun, son."

When a family of former pro football players buy a small Texas town, they didn't intend to start a war with its residents ... or to fall in love.

Ever since his career-ending injury, Pat has bounced from job to job, idea to idea, short-lived relationship to short-lived relationship. But when his father purchases the town of Sheet Cake, Pat suddenly sees his life with clear purpose: get his brothers on board with his dad's wild idea and win back the one woman who got away.

Lindy was supposed to be traveling the world, not stuck in a small town, caring for her niece. But she would do anything to keep custody of Jo--even if that looks like a marriage of convenience with the man who already broke her heart once.

Now if she can only keep herself from falling back in love with her husband...

This is a small town, marriage of convenience romantic comedy with plenty of sizzle while keeping the bedroom door closed. It's the first in a spinoff series following Harper's brothers (from *Falling for Your Best Friend*). You don't need to have read the *Love Clichés* series first to enjoy this book.
